Statement in Response to the U.S.-Korea Free Trade Agreement

November 7, 2010, Auburn Hills, Mich. - Chrysler Group LLC supports the efforts of President Obama and his Administration to negotiate an enforceable agreement that provides meaningful market access for imported autos in South Korea. While Chrysler Group has supported every free trade agreement negotiated by the U.S. Government, we cannot support this agreement in its current form. The United States is already open to Korean vehicles and that's why the U.S.-Korea Free Trade Agreement must be used to fully and irreversibly open Korea to American-made vehicles.
