FCA Canada: 2021 Ram Commercial 3500, 4500 & 5500 Chassis Cab Fact Sheet

August 31, 2020, Windsor, Ontario - Ram Chassis Cab 3500, 4500 and 5500 trucks are the Ram Commercial brand's halo trucks in capability. The design reflects a no-nonsense attitude with differentiation across four distinct price and Gross Vehicle Weight (GVW) classes. Ram Chassis Cab 3500, 4500 and 5500 represent Class 3, 4 and 5 GVW ratings. Additionally, Ram offers a unique 4,491 kg (9,900lb) GVW Class 2 Chassis Cab. While keeping true to the work truck mission, Ram Chassis Cab designers worked closely with engineers to give Ram's line of halo-capability trucks an optional level of comfort with the Limited model for those customers who have an enthusiast's passion and want a fitting truck to handle the weight.

Engineered and designed for extreme daily work and to be upfitter friendly, Ram Chassis Cabs are built for an unrelenting duty cycle with direct customer input. Ram's most capable truck line focuses on delivering best-in-class capability — a leading purchase reason among business owners. The Ram Commercial brand will continue to expand its presence in the vocational truck segment by enhancing the capabilities of Ram's Tradesman series of trucks and vans from half-ton to Class 5, and expanding commercial and vocational marketing efforts throughout North America.
