## **2022 Jeep® Grand Cherokee Ultra-Capable Lineup Among Autotrader's Best New Cars for 2022**

- The most awarded SUV ever – the Jeep® Grand Cherokee – recognized as one of the best new cars for 2022
- Expanded Jeep Grand Cherokee family includes both two-row and new three-row models, new 4xe electric plug-in hybrid powertrain, standard and available safety features, spacious and well-appointed interior and innovative technologies

February 11, 2022, Auburn Hills, Mich. - The iconic fifth-generation Jeep® Grand Cherokee, known for its legendary 4x4 capability, superior on-road refinement, premium styling and craftsmanship inside and out, continues its impressive awards streak by earning a top spot among Autotrader's Best New Cars for 2022. The expanded Grand Cherokee lineup includes an all-new two-row, a 4xe plug-in-hybrid and the first ever three-row Grand Cherokee L model.

"Long popular with outdoorsy types and suburbanites alike, the Jeep Grand Cherokee is the perfect vehicle to explore the type of living that starts where the pavement ends – but with a little extra space," said Brian Moody, executive editor for Autotrader. "Jeep has taken the Grand Cherokee and made it grow up with two handsome versions – the standard Grand Cherokee now available with a 4xe electric plug-in hybrid powertrain and the first three-row version, the Grand Cherokee L."

The list of Best New Cars for 2022 is comprised of 12 vehicles selected by a team of experts at Autotrader, who collectively tested and ranked new models using a range of criteria, including vehicles they think offer significant value or are groundbreaking in some other way.

The all-new 2022 Jeep Grand Cherokee continues to break new ground, building on its legacy as the most awarded SUV ever by introducing a new plug-in hybrid powertrain. The first-ever Grand Cherokee 4xe is set to deliver an estimated 25 miles of all-electric range, 56 miles per gallon equivalent (MPGe) and a combined driving range of more than 470 miles (756 km). The 4xe propulsion system combines two electric motors, a 400-volt battery pack, 2.0-liter turbocharged, four-cylinder engine and TorqueFlite eight-speed automatic transmission for maximum efficiency and capability.

The three-row variant of the Jeep Grand Cherokee debuted last year to meet the growing needs of Jeep customers who have asked for more space and functionality. Designed to maximize overall passenger comfort, the Grand Cherokee L delivers uncompromised third-row capacity and increased cargo volume with seating for up to seven passengers. The vehicle's expanded wheelbase creates generous interior room and gives passengers expansive, class-leading legroom in the second row.

Jeep Grand Cherokee 4x4 models (Limited and above) come standard with the class-leading Selec-Terrain traction management system, which offers five available terrain modes (Auto, Sport, Rock, Snow, Mud/Sand) to provide optimized calibrations for any given driving scenario.

With premium styling and craftsmanship inside and out, the Jeep Grand Cherokee has more than 110 advanced safety and security features, including an impressive amount of standard safety features, plus available driver-assist systems, 360-degree surround view, drowsy driver detection and night vision cameras. Segment-leading technologies

include a 10.25-inch front passenger screen, rear-seat monitoring camera system, rear-seat entertainment displays with built-in Amazon Fire TV and an available premium 19-speaker, 950-watt McIntosh audio system.

The entire Jeep Grand Cherokee lineup also comes equipped with the award-winning Uconnect 5 infotainment system, with standard wireless Apple CarPlay and Android Auto.

### **Autotrader**

Autotrader is the most recognized third-party car listings brand, with the most engaged audience of in-market car shoppers.
