## 2007 Chrysler Sebring: Design

August 31, 2006, Auburn Hills, Mich. -

### DESIGN

*"Sleek and sophisticated, the Chrysler Sebring's overall surfacing and details reflect the Chrysler brand's four attributes: expressive, refined, athletic and passionate," said Trevor Creed, Senior Vice President – Design. "Sebring's elegant styling provides a clear alternative to European and Japanese competition."*

Inspired by the 2003 Chrysler Airflite concept vehicle that was revealed at the Geneva Motor Show, the all-new Chrysler Sebring's elegant lines evoke the exterior styling features of the Chrysler vehicle, bringing the Chrysler brand's expressive design attributes to the mid-size segment.

From the front, the Chrysler Sebring Sedan features the distinctive face of the Chrysler brand, with the Chrysler signature grille, a uniquely sculptured hood, large, distinctive quad headlamps and available fog lamps.

A long hood profile, chrome beltline molding and long roofline emulate a five-door appearance. High-gloss blackouts on the B-pillars enhance the length of the Sebring's greenhouse. Sculptured character lines running along the body accentuate Sebring's athletic stance.

The expressive character of the vehicle continues at the rear where Sebring's wide tail lamps are integrated into both the rear quarters and extend into the deck lid for visual impact. Rear fog lamps mounted in the backup lamps maintain a uniform appearance between domestic and export vehicles. Chrysler Sebring Limited models add chrome-tipped dual exhaust outlets to hint at the performance capability of the optional 3.5-liter V6 engine.

The elegance found in Sebring's exterior styling also runs through the vehicle's interior, which features a modern, clean appearance with intense focus on quality, detail and execution.

Sebring's finely crafted interior features soft surfaces, mechanical grains and selective gloss levels on the interior surfaces.

From the driver's seat, Sebring's H-point is 2.54 inches (64.6 mm) higher than the vehicle it replaces, giving drivers a command-of-the-road seating position. Standard 60/40 fold-flat rear seats make room for more gear, and an available fold-flat passenger seat creates a table-like surface to enhance the versatility of Sebring's interior.

All Chrysler Sebring models feature a two-tone interior color theme of dark and lighter shades of Pastel Slate Gray or Pastel Pebble Beige, which provides a spacious and well-appointed look. The Chrysler Sebring Limited model also features an exclusive two-tone Cream and Pebble Beige interior with leather seats. The Chrysler Sebring Limited's available upscale accent materials and finishes include Tortoise Shell, Satin Silver, Alloy Silver and Chrome.
